

EIDXA Minutes
July 11, 2025

Meeting called to order at 7:46 after a station tour of K3LR via Zoom by Tim Duffy.

My apologies to all for the difficulties we had with the Zoom meeting. We met via Zoom to support Tim's program. The in-person meeting was cancelled due to the storms. Somebody needs to stop by Godfather's to ensure that we are on their calendar for the October meeting.

We discussed Field Day operations in the area and the need to encourage younger people to get involved in amateur radio and chasing DX.

Mike Nowack (NA9Q) could not join the Zoom. No Treasurer's report was given.

We have no program lined up for the October meeting.

Glenn Johnson (WØGJ) provided some inputs from the Northern California DX Association working group meeting. There have been some unknown changes to the regulations in the Southern Ocean area.

It was moved by KØFLY, seconded by WØSR, and passed unanimously to support the 3C2MD operation with \$200 split between the Hise fund and the treasury.

It was moved by WØAWL, seconded by KØFLY, and passed unanimously to support the PJ6 operation with \$100 split between the Hise fund and the treasury.

We need a trustee for our repeater. If interested, please contact any officer.

We need a nominating committee. At this time, we believe that we only need a VP.

The minutes of the April meeting were read by KØFLY. It was moved by WØAWL and seconded by NG7A and passed unanimously to approve the minutes as read.

The next meeting is October 10, 2025.

It was moved to adjourn by NØLNO, seconded by WØAWL, and passed unanimously.

Submitted by NØLNO
