

DECEMBER 6, 1979

EASTERN IOWA DX ASSOCIATION
QUARTERLY REPORT

EIDXA MEETING date JANUARY 18, 1980 time 7:30 PM place REC BUILDING
MARION (SAME AS LAST TIME) agenda QUARTERLY BUISNESS MEETING (SHORT)
program ZK1AM DXPEDITION SLIDES, WØFO's TRAVELAUGE SLIDES, AND POSSIBLE
1S1 DXPEDITION SLIDES

FROM THE OFFICERS OF THE EIDXA MERRY CHRISTMAS AND GOOD DXING-CONTESTING
IN THE NEW YEAR!

To WØSR

JUST SAY YES

It seems incredible that the EIDX has grown by +71% in the last two months. (21-36 members) Does this mean a 70% increase in dxing, contesting and club participation in eastern Iowa??!!!! The prospects of strengthening one of the best dx clubs in the nation is very exciting. In addition to increased club scores, EIDX QSLs and name badges will further promote our club.

All EIDX members welcome the newest members: NØAFL, KØAL, NØAYM, KØCF, WØJEAN, WØJEJ, NØGA, KØINR, WØRAP, N4RR, WØRU, WØSEL, WAØTVV, KØVM and WØYUI.

Have you seen some of the new antenna installations at the QTH's of the aforementioned?? Very, very impressive!

It is hoped that all will be able to attend the next club meeting and share the fellowship with old and new members.

A special thank you to the following for their extra efforts:

- *WØVX and WØSR-for work on the QSLs and name badges.
- *WØWP and KØLUZ-for outstanding jobs as club officers.
- *Everyone who has participated in a contest and submitted for EIDX aggregate score.
- *WØVX- for serving as net control (147.57 mhz) EIDX net.
- * WØWP and KØAT-for helping in the antenna installations and operation of KØJSY multi-op effort.
- *ZK1AM--for listening up for EIDXers.
- *Collins Radio-for making the KWM 380 available to club members.
- *KØAT for his efforts with the EIDX treasury.

73. Keith KØJSY

"Contester? Yes indeed,
I enjoy running JAs!"

"Us WØs have to work
harder for our DX..."

EIDXA Net

by Dave Jaksa, WØVX

Now that we are into the DX season, net participation is once again building. The past few weeks we have had about 30 percent of the members check in. This is a good response and a great deal of helpful information has been passed.

Although the net is useful as it now exists, there are a number of ways it can become a more effective DXing tool and means of communication among the members. One or more of us have access to many sources of pertinent DX and general information, such as the Long Island DX Bulletin, The DX Bulletin, W6TI Bulletin, HR Reports, ARRL Bulletins, FCC Releases, Propagation Forecasts, Off the Air Info, etc. While a verbatim reading of this information would be extremely time consuming and probably boring, a synopsis of key items would be interesting. It would also make the net more than a check-in/check-out exercise. To quote our constitution, "It shall be our purpose to promote cooperation, exchange of information, improved operator proficiency, and fraternalism so as to advance Contest and DX activity within the amateur radio community." Bring what you can to the net. We will all benefit, and so will you.

EIDXA NET EVERY WEDNESDAY 9:30 PM 147.570 MHz
--

GROWTH

by Dave Jaksa, WØVX

During the past several months, we have seen rapid growth and expansion of the EIDX. This welcome, and perhaps overdue, event means bigger and better things for our four-year-old club. As we have taken on new members, we have also taken on an obligation to service the new members, many of whom live outside the local Cedar Rapids area. This new newsletter goes a long way toward filling that need. Unfortunately, no bulletin or newsletter can provide real time DX information. That's where our informal DX alerting frequency, 147.57 MHz, comes in. Many a new country has been worked because somebody put the info on 2 meters. But what about the guys outside of the Cedar Rapids area? They can't hear many, or in some cases any, of the other members. While each of us having a respectable signal on 2 would do a lot to help the situation, I don't think that alone will solve the problem. Several years ago, we talked about a DX repeater to solve our Cedar Rapids/Iowa City problem. After much discussion, we unanimously decided against it because we were, after all, DXers not VHFers. Is it time to reconsider? I don't have the answer. I am neither a proponent nor an opponent of a DX repeater. I simply want to point out that as we grow larger, there are new considerations to be addressed if we are to remain a successful DX and Contest organization.

DXING AND CONTESTING

1980 DX ARRL Contest has been revised. The rule changes are fully documented in the December issue of QST. They are awarding plaques in several categories and are looking for 35\$ donations of sponsorship. Are there any club interest in sponsorship?

EI9V, Con Hunter, had planned on attending the 1979 Midwest convention in Cedar Rapids but due to illness missed the affair. We sure hope Con can make the trip over soon.....

Congradulations plus to the CVARC for the beautiful Convention!!!

N4HX/TT8 now active 14.208 mc at 1500z. Also QRV on 21mc.

73 magazine has a new DX award package. Info in Sept-Oct editions of "73".

UA1PAL, UK1PGO, and UK1PAA are all Franz Josef Land stations. They are active especially UA1PAL.

S2BTF-Bangladesh, has been occassionally checking into the W7PHO net on 15 about 0100z.

Late word on the big Indian ocean DX pedition (FR7/T/E/G etc) has been delayed until after the first of the year.

Qatar-DK6NW/A7 showing on schedule with weekends at 1300z on 28.049 mc. Be there 20 minutes or so early as DK3GI takes a list prior to sked time.....

Congo-TN0HL-TN8AJ says he will be there thru July 1980. Usually around 21.330 mc 2000z QSL via DM2XLO.

4W2AA- will be QRV for several months. 14.280mc at 2100z. This one goes to I2MQP.

Palmyra and Kingman Island DX pedition to open around January 4.

San Felix CE0XEA - no late word.

Prefix changes....VP2D now J7
VP2L now J6
VP2G now J3
CR3 now J5

D4CBS/J5 now active. Length of stay not known.

3A2CX- especially cw December 23.

QSLs...

more shorties....

HS1ABD will be listening for North American stations on 3.517 or 3.522mc at 1100-1200z.

9V1OK often 7.004mc at 2200z.

OD5LX often 28.005mc at 1200-1600z QSL via SMØGMC.

Do you know/????

1. What the prefix of the sta that says his QTH is Franze? _____
2. What country UK2AA is? _____
3. What is the prefix for the country Maldives? _____
4. What ocean is the country ZD9 located in? _____
5. What country is the farthest geographically from Cedar Rapids? _____

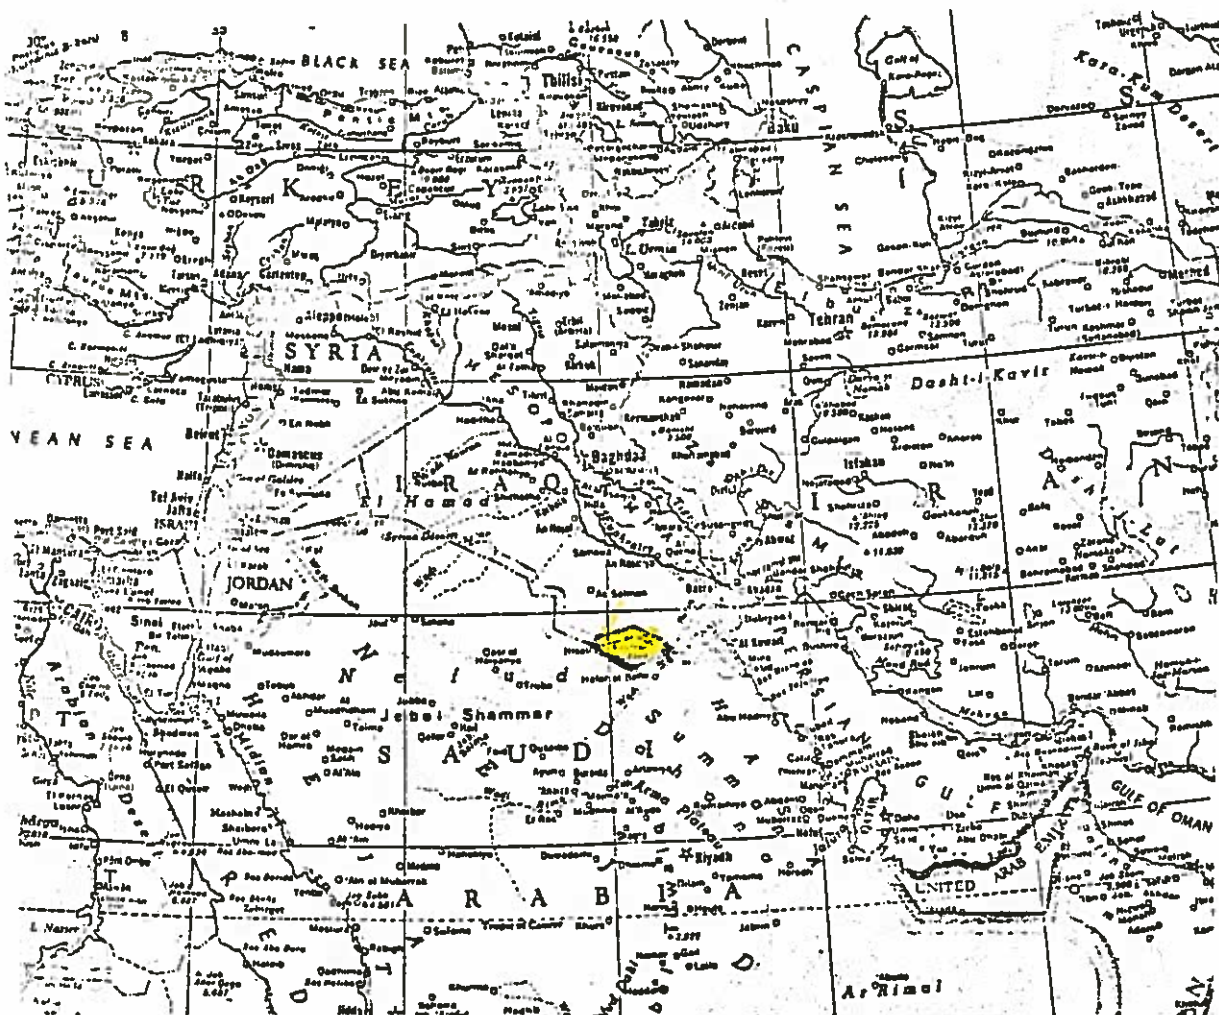

answers next issue

As 824A was finally logged several days after the JY's opened there DX-Pedition, I asked myself where and what is this place they call Saudi Neutral Zone?

Here is what I was able to find.... "As Saudi control spread outward from the center of the peninsula growth of the kingdom was limited in the north by international treaty and along its southern boundaries by self imposed limitation. The northern boundaries were established in the 1920s by a series of treaties negotiated between Abd al-aziz ibd Saud and British officials representing the intrests of Jordan, Iraq and Kuwait. These artificial boundaries have never been marked on the ground, and precise demarcations of the desert frontier remains uncertain. The treaties created two diamond shaped neutral zones, one on the Iraq border (824), and the other with Kuwait (9K3,825), as a means of avoiding border conflicts. The neutral zone with Kuwait was partitioned in 1964-65 for the purpose of dividing the oil wealth in the area."

In December of 1969 9K3,825 was scratched from the DXCC list. As far as previous DX trips nothing other than a single mentioning of a QSL mgr back in a early 50's QST, that pertains to 824.
